SkyeWard

When Grant Ward first laid eyes on Skye he knew he had to have her. She was perfect the complete opposite of Ward; she was wild, fun, comedic, rebellious, and well good. It was on their missions when Ward first realised his affections for Skye. She had this ex-boyfriend named Miles. The literal second Ward saw that Miles and Skye were together he knew he hated him and that he had to get rid of him. Luckily the problem basically solved itself but, he had to get rid of Miles completely. So when he had a free chance he tracked miles down and eliminated him ... permanently. After that Ward became very protective of Skye he wouldn't let anyone near her without his presence. He spent his days training Skye watching her grow and evolve into the field agent she had become. Once Garrett ordered Ian Quinn to shoot Skye dead. Even though the bullet just missed her heart it hit her left lung and she was then suffocating in her own blood. Ward went completely insane with worry over Skye he couldn't let her die he just couldn't he didn't know what he would if she was killed.
